

INTERIOR HOME DESIGN INSPIRED AND REALIZED AT HET BINNENHUYS

Het Binnenhuys is a mansion that is also a monument that has been restored and being discovered. When you enter the historic home, a world comes alive and inspiration is realized. Karin Martens is the 'guru' of this unique concept under one roof.

"My art is 'Interior decorating' and my business has become a "theatre" for the expression of all my abilities... We offer a 'Total Concept' for your homes 'interiors', in a way that was not possible up to now in Aruba!"

Karin is not one to brag, she just has total confidence in her abilities, unique combination of services and a willing team. "To realize any vision, our team consists of an interior decorator, seamstress, an architect, professional painters, upholsterer and carpenter."

Het Binnenhuys offers interior advice and execution, achitecture, color advice, paintwork, additionally an extensive service of materials used for curtains, drapery and upholstery. "We supply the materials, help with design and we make measurements, place and install everything in your home. From roman blinds to a corniche box with its heavy drapery."

Holiday Tip: Don't forget Het Binnenhuys also is a great place for Arts and Gifts. Don't know what to give as a gift? May we suggest a special 'Giftvoucher', it comes in a beautiful frame, set in an impressive giftbag. A perfect gift for any occasion and especially for any holiday!!!

Het Binnenhuys, a DREAM of a home, come take a look...
